The Tatum Mentoring Group

We are proud to be able to list this group of outstanding individuals, handpicked by Dr. Tatum, for our mentorship program. The vision is to have select colleagues share his philosophy with the many clinicians seeking to find a simpler, more natural way to treat their patients. The group has been so gracious in accepting this important responsibility. There was not a hesitation in any of their voices when asked to participate - the immediate response was, "What do you need and how can I help?" John Crosby put it plainly by saying, "Mentoring is a brain to pick, an ear to listen, and a push in the right direction."

6 categories have been developed, and each doctor has chosen which category best fits into their practice.

1. Implant Placement
2. Sinus Augmentation
3. Ridge Augmentation
4. Soft Tissue Management
5. Restorative Techniques
6. Treating the Severely Atrophic Maxilla and Mandible

Mentoring can be done in numerous ways: by phone, e-mail, mail, and an "open door policy" at their office. We hope this list will help share the Tatum knowledge that is so needed in our implant community.
