**September 2013
to June 2014**

300 hours of continuing education in Oral Implantology

In partnership with

UBC DENTISTRY
CONTINUING DENTAL EDUCATION

Become a student of change. It is the only thing that will remain constant.

Anthony D'Angelo

Overview of the Vancouver MaxiCourse Program

- Systematic approach to learning implant dentistry.
- Review physiology, pharmacology and medical management of patients.
- Exposure to the broad spectrum of Oral Implantology - beyond root forms.
- Learn diagnostic and treatment planning algorithms.
- Sharpen restorative, surgical and periodontal skills.
- Attain clarity in where dental implant services fit into your practice.
- Connect with a support team and gain camaraderie with other dentists.
- Provide dental implant services in a safe, effective and profitable manner.
- Option to be recognized (Credentialed) by writing the Associate Fellowship Exam Part A.

The magic is in the
magician, not in the
wand.

Dr. William K. B. Liang

The Vancouver MaxiCourse provided me the foundation to take my implant practice to the next level. Although I have been placing implants for almost 10 years, the Vancouver MaxiCourse supported and advanced my knowledge of implantology itself and the broad base of science it is built on. I now have the knowledge and confidence to approach a more wide range of cases and satisfy the needs of my patients.

Dr. Tom Roozendaal , Duncan B.C.

Program Outline

Over 300 hours of Continuing Education

The Vancouver AAID MaxiCourse® is a structured program consisting of 30 days of education over ten months. The program will run from September 2013 to June 2014. Each session will run from Friday to Sunday. It will consist of a systematic buildup of the didactic material, laboratory exercises, surgical demonstrations, clinical participation and surgeries on your own patients. All surgeries will be mentored and supervised by AAID credentialed faculty members. Session four of the program will offer an opportunity to review surgical anatomy as well as the placement of implants and performance of various surgical procedures on cadavers at the UBC Faculty of Medicine, Department of Anatomy. Each participant will be eligible to challenge the written component of the AAID Fellowship exam at the end of the program. This is optional and a personal choice.

Course Director : Dr. William Liang, Diplomate, American Board of Oral Implantology
